ABOUT AUSTRALIAN CATHOLIC UNIVERSITY

ACU has a bold vision for its future. Our Vision 2033 is our landmark statement of strategic direction for ACU's mission as a Catholic university to constitute a 'Christian presence in the university world confronting the great problems of society and culture'. Our mission is to help shape the coming generations in Australia and beyond, by enabling flourishing lives, fostering thriving communities, and building a more ethical future.

Our Catholic mission informs everything we do – challenging us to respect the dignity of the human person, serve the common good, and embed ethical and social justice considerations throughout our teaching and research. We strive to live our core values of truth, excellence, and service.

We are a publicly funded university, and while we are young, we have grown significantly and we and we are making our mark: we are one of the largest university contributors to the care economy in Australia and rank among the top universities worldwide. We have seven campuses around Australia, more than 200 partner universities on six continents, and a campus in Rome, Italy.

We prioritise our staff, supporting their growth with a positive culture, generous leave, and flexible work arrangements. We invite all staff to engage with our mission in whatever way is most meaningful to them – whether as Catholics, as members of other churches and faiths, or as people with no religious affiliation but who are willing to embrace our vision, mission and strategic direction. We continue to invest in our facilities and workplaces and actively involve staff in shaping the future direction of the organisation.

ABOUT THE FACULTY OF HEALTH SCIENCES

The Faculty of Health Sciences comprises three schools:

- Allied Health
- Behavioural and Health Sciences
- Nursing, Midwifery and Paramedicine

There are currently approximately 14,000 students (EFTSL) and 520 (FTE) staff in the faculty under the disciplines: occupational therapy, speech pathology, social work, exercise science, exercise physiology, nutrition science and dietetics, biomedical science, nursing, midwifery, paramedicine, digital health, physiotherapy, psychology and public health. The Faculty is represented across seven ACU campuses.

The Faculty's research broadly addresses the Future Healthcare Worker, Health across the Lifespan, and Human Performance, with some of our current research focused on Cardiovascular Disease, Metabolism, Health Services Research, Nutrition, Sports Performance and Rehabilitation, Psychology, and Mental Health.

An expanding portfolio of postgraduate courses is also available in coursework and research. Many postgraduate courses within the Faculty have been developed in conjunction with industries to meet specific needs of the professions and industry. Some postgraduate units are offered in flexible learning mode by online study. All students have professional and clinical experience that is supervised by specially qualified practitioners. Catholic hospitals and other public, private and specialty organisations, as well as schools and the health and sports industry, are involved with preparing for, promoting, and offering this valued and essential experience.

The goals of the Faculty are closely linked to and emanate from the Mission of the University. The areas of achievement by the Faculty include the key areas of teaching and learning, research and scholarship, community engagement in addition to specific objectives regarding internationalisation, quality and resource management. It has well-established procedures for evaluating performance and ensuring quality which involve students and representatives of the various statutory registration authorities and professional organisations, as well as recent graduates and employers.
